

DEA has proposed new rules for the prescription of medications via telemedicine. Here is how these rules may affect your prescription.

Is my prescription a controlled medication?

NO, IT'S A NON-CONTROLLED MEDICATION

Many common prescriptions are **non-controlled medications** and will **not** be impacted by these rules, including:

-
- Acne creams
 - Blood pressure medications
-
- Antibiotics
 - Cholesterol medications
-
- Birth control
 - Insulin
